March 12, 2021

Dear Maury Mutual community,

Because of the ongoing issues with COVID-19 we will again forgo our annual membership meeting this year. To those who are new to the system, we normally have a meeting for all of our member/owners every year toward the end of March. This is our opportunity to let you know what we have been up to and your opportunity to provide input and guidance. And every year one of the five seats on the Board of Trustees is up. We considered doing this by zoom this year, but were concerned that too many members would be technologically excluded. We wish this were not the case.

Paul Gilland's term is up this year. We will treat this as a vacant seat and the remaining board members will appoint him to continue to serve until a proper election can be held. Sadly, Will Lockwood has decided that he is over committed with his numerous good works for our Vashon community and has stepped down from the board. He will be missed. We are now searching for a replacement. Any interested member, please send an email.

We have made some progress with improvements to the physical plant this year with a new controls system and a new storage building. A facilities report and a financial report, both included with this mailing, provide a more detailed explanation of the state of the physical system and of company finances. We have also been updating and clarifying some company policies. You can find current Leak Dispensation and Meter Access policies on our website:

<https://maurymutual.org/documents/>

At the risk of being overly optimistic, it does seem that there may be a light at the end of this pandemic tunnel. As life returns to something resembling normal, we can return to our annual get togethers. Company business will certainly benefit and it will be nice to see all of our neighbors face to face again!

Please stay healthy,

Your Board of Trustees:

Steve Hunter (President)  
Jerry Balcom (Vice President)  
Steve Brown (Treasurer)  
Paul Gilland (At Large)
